

GATH® HELMETS

GATH HEADGEAR FOR AIR, SNOW & WATER

Since 1989, thousands of users, including professional and recreational surfers, whitewater paddlers, kiteboarders, skydivers and rescue service personnel, have benefited from Australian Ric Gath's lightweight, close-fitting headgear.

WHAT BENEFITS CAN YOU EXPECT IF YOU CONSISTENTLY WEAR GATH WATER SPORTS HEADGEAR?

- Protect covered areas from boards and fins (yours or others).
- Protect your head and ears from rock or reef rash.
- Protect your inner ears from rupture by sudden pressure.
- Protect your inner ears from "surfers ear" or "swimmers ear." 1) Bone growth closes ear canal; 2) Inner ear infection.
- Maintain core temperature with less wetsuit. (Save 20% heat loss vs. uncovered head.)
- Help protect skin and eyes from sunburn and skin cancer.

WHY SHOULD YOU CHOOSE GATH?

- **Small and round size and shape** to prevent "bucketing" or snagging. Big helmets with hard "lips" or "peaks" can scoop water or grab rocks or reef.
- **Maximum coverage**, including lower cranium and ears.
- **Face and eye protection** is a big bonus!
- **Light weight** (wet or dry) reduces neck strain.
- **Full peripheral vision** with no blind spots.
- **Helps prevent water from draining over your eyes** when emerging from water.
- **Secure fit**, including proper size and a buckle system that does not permit helmet to become dislodged or displaced. (If it comes off, it's no good!)
- **Appropriate materials and hardware** like closed cell foam (does not absorb water) and stainless steel (does not rust).

WARRANTY

3-year warranty against defects in materials and workmanship.

Warning: Wearing headgear offers some protection and may build confidence. However, it is no substitute for common sense and may not prevent serious injury or death. GATH Headgear is not recommended for use as a crash helmet on roads or highways. Gath recommends that the audio vents be closed during any watersports action and that they be opened only at times when water pressure induced ear injury is not a possibility and full audibility is desirable.

Wear with or without ear protection

GATH® GEDI CONVERTIBLE

Wear with or without ear protection and/or visor

GATH® GEDI CONVERTIBLE

Purpose designed to meet the special requirements of extreme kayaking (white water and "creeking"), extreme kiteboarding, rescue service personnel using PWC's, swift water rescue services and others. Design criteria: To provide the best coverage and the most impact protection while still maintaining the low-profile, hydrodynamic shape required for high speed water entry. We believe that the Gedi will set the standard by which all others will be compared. The Ribbed Peak Visor is included with Gedi purchase!

With optional Gedi visor

Optional Gedi Visor \$30.00

0=Clear, 9=Gray

52-04_2 Gedi Visor: Fits Small to Large Gedi

52-04_3 Gedi Visor: Fits X-Large Gedi

Ribbed Peak Visor

A ribbed peak visor is included with the Gedi, but the visors are also available separately.

GATH® CONVERTIBLES

The Gath Surf Convertible and Gath Gedi represent Ric Gath's response to over 10 years of experience and customer feedback. Check out the following improvements:

- **More comfort:** Flexible ear protectors with comfortable foam lining adapt to your face size and shape.
- **Versatility:** Ear protectors are removable! Optional coverage accommodates temperature or user preference.
- **More ear protection:** Improved comfort and fit. Better hearing: New Gaths are quiet. Wind noise is greatly reduced.
- **Surf Convertible Forehead Protection:** The Surf Convertible features foam "mini peak" forehead coverage that adds some additional protection.
- **Gedi Forehead Protection:** The Gedi helmet covers and protects the forehead at the same level of impact protection as the rest of the helmet.
- **Eye and Facial Protection:** Optional visors will add protection from sun and spray and may offer some additional protection from abrasion and/or impact.
- **Communication & entertainment compatibility:** New Gath ear protectors will accommodate forthcoming waterproof speakers and microphones for use with cell phones, radios and MP3 players. Call or check website for additional information.
- **A skate-style appearance:** Provides more coverage, a solid retention system and long-lasting saltwater safe materials and fasteners.

Replacement Parts

Additional comfort strips (#52-05___) are available to help achieve a fit that offers maximum comfort and stability. Audio vent parts and ear protectors are also available.

GATH® SPORT HAT & OPTIONS

GATH® SPORT HAT (NO VISOR)

This ultra-lightweight model for high energy performance situations is the primary choice for sky divers (head up) and many surfers. EVA headband provides additional forehead protection.
