

SAILING SUITS

BREATHABLE DRYSUITS BY STOHLQUIST & GUL

Why choose a BREATHABLE drysuit? Too much moisture (perspiration) inside a drysuit, combined with cooling to cold conditions outside the suit, mean that you can get COLD! A BREATHABLE drysuit vents moisture to help keep you comfortable. See "Hints for Staying Comfortable" on page 9 for more information.

STOHLQUIST BPOD BREATHABLE DRYSUIT

This innovative next-generation drysuit redefines dry comfort for the sailor, rafter, whitewater paddler and sea kayaker by blending the features of the traditional drysuit with new developments from Stohlquist drytops to add a significant degree of comfort. Features:

- New, ultra-stretchy neoprene neck seal is dry and more comfortable than conventional latex.
- New built-in relief zippers for both men's and women's models.
- New chest pocket.
- Fabric dry socks are sheathed in black Cordura™ and shaped for one size fits all.
- Knees and shins are reinforced and padded with PE foam.
- Waterproof Ti-Zip® cross-chest entry conveniently closes downward.
- Wrists have latex gaskets with stretchy hook and loop adjusters and self-draining cuff covers.
- Waterproof/breathable TTL Eclipse™ fabric throughout.
- Women's suits are tailored for a feminine fit.
- Men's drysuits are mango/black; women's are powder blue/black.

GUL INFRA BREATHABLE DRYSUIT

Gul's most popular drysuit is packed with technical features for enhanced performance. Glideskin wrist and neck seals offer new levels of comfort and the stylish panel layout is shaped for an improved fit. Ideal for catamaran and dinghy sailing and watersports in the cooler months. The GCX3 hard wearing, 3-layer fabric is breathable, waterproof and lightweight to protect you from the elements and 100% waterproof heat taped seams prevent water penetration. Contoured body panels give a performance fit for reduced snagging and bulk and improved windage. Also features: articulated arms and knees, tough Dynat zip with cover, elastic waist, an arm pocket with drainer for secure storage, and internal suspender points (suspenders not included). Integrated latex socks keep feet warm and dry and are the only way to go for fast and easy drysuit entry and removal. Keep in mind that you may need to order next size larger boots. Do not wear dry suit without boots or shoes! Navy/silver in men's sizes. Limited sizes available.

RONSTAN BREATHABLE REGATTA SMOCK

Ronstan's CL8 Breathable Regatta Smock utilizes the latest high-performance materials and outstanding design innovations to keep sailors as warm, comfortable and dry as possible on the water. Waterproof, lightweight and breathable Rtech3 fabric, combined with improved snug-fitting body shape fit, make Ronstan's eye-catching smock ideal for more competitive dinghy, keel boat and catamaran racing. The protection and comfort of the CL8 Regatta Smock are maximized by:

- A waterproof and breathable shell that features fully taped seams for maximum protection and warmth.
- A front-opening, water resistant zip that gives advanced water protection in cold conditions, while the gusset-free design allows superior ventilation in warmer situations.
- The neoprene waist band features a non-slip finish that prevents ride-up and water wicking.
- The micro-mesh lining provides a captive air layer for temperature control and comfort.
- Comfortable stretch cuff and neck seals ensure a perfect fit and minimum water ingress.
- The action cut means a closer fit while still giving full freedom of movement.
- Two external, self-draining chest pockets for advanced access and storage capabilities when wearing a life jacket.

HINTS FOR STAYING COMFORTABLE

- Dress for the conditions and layer as necessary.
- Wear underwear that “wicks” moisture away from your skin (polypro, wool).
- “Vent” (open zipper for a few seconds) suit between races or as appropriate and safe.*
- Add or remove a warm (wool, neoprene, polypro) hat or cap to balance temperature.
- Return to shore ASAP if you feel that you are not going to be comfortable.

*Warning: Do not sail with dry suit zipper open! If you capsize and suit fills with water, you will be in real danger!

LAYER FOR WARMTH AND COMFORT

- Short or long-sleeve rash guards (see pg. 10).
- Gul fleece: purpose designed for wearing under your dry suit.

ACCESSORIES ADD WARMTH

Boots (see page 12)

If your boots seem too small to accommodate your new latex dry socks, consider purchasing a pair of boots one size larger.

Gloves (see page 13)

Gul Dry Gloves give a real waterproof seal with dry suit wrist cuffs.

Cap or Hood (see page 12)

A neoprene cap or hood is the easiest way to control up to 20% heat loss or retention.

GUL ONE-PIECE SPRAYSUIT

Lightweight but durable one-piece suit features:

- GCX waterproof fabric.
- Adjustable neck seal
- Two-way zip with storm flap.
- Elastic waist panel for better fit and comfort.
- Adjustable polyurethane wrist seals.
- Self-draining pocket on thigh.
- Reinforced seat and knee wear areas.
- Silver/Navy.
- Limited stock available.
