

SAILING SUITS

WHY CHOOSE A BREATHABLE DRYSUIT?

Too much moisture (perspiration) inside a drysuit, combined with cooling to cold conditions outside the suit, mean that you can get COLD! A BREATHABLE drysuit vents moisture to help keep you comfortable. See "Hints for Staying Comfortable" on page 9 for more information.

STOHLQUIST BPOD BREATHABLE DRYSUIT

This innovative next-generation drysuit redefines dry comfort for the sailor, rafter, whitewater paddler and sea kayaker by blending the features of the traditional drysuit with new developments from Stohlquist drytops to add a significant degree of comfort. Features:

- New, ultra-stretchy neoprene neck seal is dry and more comfortable than conventional latex.
- New built-in relief zippers for both men's and women's models.
- New chest pocket.
- Fabric dry socks are sheathed in black Cordura™ and shaped for one size fits all.
- Knees and shins are reinforced and padded with PE foam.
- Waterproof Ti-Zip® cross-chest entry conveniently closes downward.
- Wrists have latex gaskets with stretchy hook and loop adjusters and self-draining cuff covers.
- Waterproof/breathable TTL Eclipse™ fabric throughout.
- Women's suits are tailored for a feminine fit.
- Men's drysuits are mango/black; women's are powder blue/black.

RONSTAN BREATHABLE REGATTA SMOCK

Ronstan's CL8 Breathable Regatta Smock utilizes the latest high-performance materials and outstanding design innovations to keep sailors as warm, comfortable and dry as possible on the water.

Waterproof, lightweight and breathable Rtech3 fabric, combined with improved snug-fitting body shape fit, make Ronstan's eye-catching smock ideal for more competitive dinghy, keel boat and catamaran racing. The protection and comfort of the CL8 Regatta Smock are maximized by:

- A waterproof and breathable shell that features fully taped seams for maximum protection and warmth.
- A front-opening, water resistant zip that gives advanced water protection in cold conditions, while the gusset-free design allows superior ventilation in warmer situations.
- The neoprene waist band features a non-slip finish that prevents ride-up and water wicking.
- The micro-mesh lining provides a captive air layer for temperature control and comfort.
- Comfortable stretch cuff and neck seals ensure a perfect fit and minimum water ingress.
- The action cut means a closer fit while still giving full freedom of movement.
- Two external, self-draining chest pockets for advanced access and storage capabilities when wearing a life jacket.

TORRENT BREATHABLE TOP

Stohlquist's wind and spray top is constructed of highly breathable fabric with taped seams to make it totally waterproof. It has a roomy cut and adjustable skin-in neoprene neck and cuffs for comfort. It also features a front zippered pocket and dropped back hem. Sizes run large so that the top can be worn over other layers. Available in blueberry or cantaloupe.

HINTS FOR STAYING COMFORTABLE

- Dress for the conditions and layer as necessary.
- Wear underwear that "wicks" moisture away from your skin (polypro, wool).
- "Vent" (open zipper for a few seconds) suit between races or as appropriate and safe.*
- Add or remove a warm (wool, neoprene, polypro) hat or cap to balance temperature.
- Return to shore ASAP if you feel that you are not going to be comfortable.

*Warning: Do not sail with dry suit zipper open! If you capsize and suit fills with water, you will be in real danger!

LAYER FOR WARMTH AND COMFORT

- Short or long-sleeve rash guards (see pg. 10).
- Gul fleece: purpose designed for wearing under your dry suit.

ACCESSORIES ADD WARMTH

Boots (see page 12)

If your boots seem too small to accommodate your new latex dry socks, consider purchasing a pair of boots one size larger.

Gloves (see page 13)

Gul Dry Gloves give a real waterproof seal with dry suit wrist cuffs.

Cap or Hood (see page 12)

A neoprene cap or hood is the easiest way to control up to 20% heat loss or retention.

GUL ONE-PIECE SPRAYSUIT

Lightweight but durable one-piece suit features:

- GCX waterproof fabric.
- Adjustable neck seal
- Two-way zip with storm flap.
- Elastic waist panel for better fit and comfort.
- Adjustable polyurethane wrist seals.
- Self-draining pocket on thigh.
- Reinforced seat and knee wear areas.
- Silver/Navy.
- Limited stock available.
