

DRYSHIRTS & RASH GUARDS

ULTRA-THIN WETSUITS

LONG SLEEVE DRYSHIRT

The revolutionary fiber and patented synthetic treatment in the Dryshirt™ make it unique apparel for both the serious racer and recreational cruiser. The state-of-the-art material repels water from the outside, but is lightweight and breathable, making it ideal for sun and spray protection in hot conditions and a perfect base layer in cold weather when feeling sticky isn't an option. Sun Protection Factor (SPF) 50. White. Quantity discounts and custom screening are available for fleets, teams or other organizations.

LONG SLEEVE PROWIK SHIRT SPF 50

Moisture management plus breathability equals total comfort! Prowik® shirts are designed to transport moisture away from the body and enhance fabric drying rate, keeping you feeling cool, dry and more comfortable in hot and humid weather. In cold weather, Prowik® is a great first layer, keeping bone-chilling perspiration away from your skin and moving it to the outer layers for evaporation. Prowik® is fast drying, breathable, and resists fading, shrinking and wrinkling. SPF 50. Titanium color.

RASH GUARDS

Polypro Thermal Rash Guards: Add 1-2mm warmth equivalent with more comfort and less restriction. Black.

Lyra Rash Guards: Make entering wetsuits easier and more comfortable. Cat and dinghy sailors may want to wear over harness and life jacket to prevent "snagging." White with blue stitching.

Wear a rash guard as an outer layer to help prevent snagging.

CROSS-SPORT WETSUITS

GUL 3/2MM B/S TI-2 STEAMERS

These are the most versatile, mid-weight cross-sport wetsuits. Use for surfing, sailing, kite and windsurfing and stand-up paddling in colder conditions. All feature Titanium-2 neoprene and, for added warmth, waterproof and comfortable blind-stitch construction and Smooth-Skin Bodyzones for extra warmth when exposed to a breeze. Men's Gul Profile 1203 wetsuits feature 60% G-Flex neoprene and Liquidseam construction for added waterproof strength. Ladies' Gul Response 1203 suits feature G-Flex neoprene panels for added flexibility.

GUL WETSUIT TERMS

B/S: Blindstitched seams are also glued and effectively keep most water out.

F/L: Flatlock seams are smooth, strong and comfortable with some leakage.

3/2mm: Combination of 3mm (torso) and 2mm (arms) neoprene.

Ti-2: Newest titanium technology reflects body heat to keep you warm.

Liquid Taped Seams: Blindstitched seams that are coated with an additional layer of glue inside the suit.

Dura-Skin Neoprene: The "skin" is a smooth or textured outer surface that sheds water. Inside is lined with nylon.

G-FLEX: Super stretchy neoprene permits less restricted range of movement and comfort compared to the standard grade of neoprene used on less expensive wetsuits.
