

## CHOOSING THE RIGHT GLOVES

Gloves prolong sailing by protecting your hands. **Sailing Gloves** for catamaran and dinghy sailing have palms with special reinforcement for handling sheets. **Kiteboarding, Windsurfing or Paddling Gloves** have no reinforcing and are therefore thinner, making the bar, boom or paddle easier to hold. When extra warmth is needed, choose **Gloves with Neoprene**, with the amount of neoprene dependent on the severity of conditions.

## GLOVE SIZE GUIDELINES

Measure the width of your palm just above your thumb.

- XS = 2-7/8"
- Small = 3-1/8"
- Medium = 3-1/2"
- Large = 3-3/4"
- X-Large = 4-1/8"
- XX-Large = 4-1/2"

## GUL NEOPRENE SAILING GLOVES

### Catamaran & Dinghy

These Gul gloves have a neoprene back and a curved anatomic cut that gives optimum fit. Amara palm with foam padding and a grip patch provide a good, comfortable grip. Adjustable hook and loop wrist closure. Choose full-finger style for maximum warmth and protection.

## RONSTAN "STICKY" RACE GLOVES

### Catamaran & Dinghy

Ronstan's "Sticky" gloves reduce fatigue by minimizing the physical effort required to hold rope. They are constructed of Amara® synthetic leather for maximum durability, minimum stretch and shrinkage, and are double-stitched with Aramid thread in high wear areas. Double-thick palm and fingers add protection and grip, while mesh panels ensure flexibility and comfort. Choose Half-Finger gloves for cool and comfortable dexterity; choose 3-Finger gloves for extra warmth and protection. Size XXS = ladies' small.
