

# LIFE VESTS & SAFETY

## A-B. STOHLQUIST BETSEA AND DRIFTER LIFE VESTS

BetSea and Drifter vests are designed for sailors who trap-out. They are short cut and small so that they are not in the way as you move on the boat. "Stretchy" shoulders follow your movement without restriction. Both have Stohlquist's unique "cinch" cross chest strap that, once it is applied, draws the vest low and with a close fit without tightness. The "cinch" totally eliminates annoying ride-up and the rough treatment it can give your chin while you are hooked in, out on the wire. Finally, if you are forced to swim, the flotation rides lower on the torso to float you higher. Buoyancy: 16 lbs. 10 oz.

### A. BETSEA FOR WOMEN

BetSEA is the first truly anatomically correct ladies sailing vest. It has built-in cups that self adjust (via the "cinch") to fit sizes B to D. Size Small/Medium fits 28"-34" bust; Large/X-Large fits 34"-40" bust.
