

TORQEEDO ELECTRIC MOTORS

ULTRALIGHT 402 KAYAK MOTOR

The first genuine kayak motor "package"

Includes: 400W/1hp motor, universal mounting system with auto kick-up and pull-down features that can be integrated with remote on-board steering; lithium-manganese high performance battery with integrated GPS; remote throttle control with magnetic on/off key with 4-function display that shows battery charge status, remaining range at current speed, speed over ground (GPS) and current power consumption in watts.

- 71-1401 *Ultralight Package* \$1,799.00
- 71-1411 *Spare Battery for Ultralight* \$599.00
- 71-1912 *Spare Propeller 8x8 for Ultralight* \$79.99

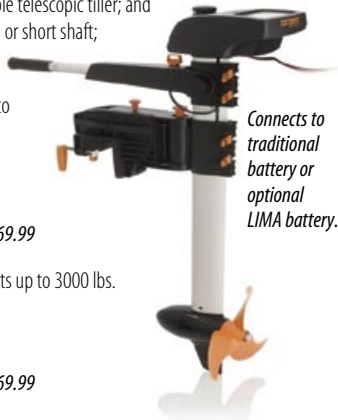

Includes remote throttle control, LIMA battery, and battery charger.

TORQEEDO BASE MOTORS

Torqueedo's Base Motors are for fishing boats, skiffs, aux power for sailboats or beach cats to 1.5 tons. Twice as efficient as conventional electric trolling motors means twice the range with the same batteries, boat and speed. Includes battery adapter cable set (10ft) with integrated fuse for use with conventional batteries (batteries not included), high-efficiency motor and propeller; height-adjustable transom bracket with tilt and trim mechanism; height and angle adjustable telescopic tiller; and stepless forward/reverse speed control. Options: 1) Long or short shaft; 2) Integrated lithium-manganese battery and charger.

- Base 401**
400W/1 hp, 12V, 20 lbs (plus 12V battery) for boats up to 1600 lbs.
- 71-1307 *401S Base: Short* \$999.00
 - 71-1308 *401L Base: Long* \$999.00
 - 71-1111 *Optional LIMA Battery for 401* \$599.00
 - 71-1113 *Optional Charger for 401 LIMA Battery* \$69.99

- Base 801**
800W/2 hp, 24V, 21 lbs (plus two 12V batteries) for boats up to 3000 lbs.
- 71-1309 *801S Base: Short* \$1,199.00
 - 71-1310 *801L Base: Long* \$1,199.00
 - 71-1112 *Optional LIMA Battery for 801* \$599.00
 - 71-1114 *Optional Charger for 801 LIMA Battery* \$69.99

Connects to traditional battery or optional LIMA battery.

TORQEEDO LIGHTWEIGHT ELECTRIC MOTORS

Light, clean and virtually maintenance free, Torqueedo makes the most efficient electric motors and high power lithium-manganese (LIMA) batteries for kayaks, fishing boats, skiffs, sailboat auxiliary power, pontoon boats and more!

TORQEEDO TRAVEL MOTORS

Travel Motors disassemble and pack into a waterproof duffel/backpack (included) for compact storage (approx 20"x12"x12"). Also, lithium-manganese high-performance battery replaces the need for external battery(ies) and cables. Order the optional battery cable set to enable use of an external battery.

- 401 Travel**
400W/1 hp, 12V, 25 lbs. including LIMA battery.
- 71-1107 *401S Travel: Short* \$1,499.00
 - 71-1108 *401L Travel: Long* \$1,499.00
 - 71-1113 *Optional Charger for 401 LIMA Battery* \$69.99
 - 71-1115 *Optional Battery Cable Set for 401/801* \$199.00

- 801 Travel**
800W/2 hp, 24V, 26 lbs. including LIMA battery.
- 71-1109 *801S Travel: Short* \$1,699.00
 - 71-1110 *801L Travel: Long* \$1,699.00
 - 71-1113 *Optional Charger for 401 LIMA Battery* \$69.99
 - 71-1115 *Optional Battery Cable Set for 401/801* \$199.00

Motor folds for easy travel and storage.

Includes LIMA battery, battery charger, and waterproof travel bag.

TORQEEDO CRUISE MOTORS WITH TILLER CONTROL

Powerful electric outboard motors for fishing boats, pontoon boats or yacht tenders. Includes: angle-adjustable telescopic tiller with stepless forward/reverse speed control; voltage indicator provides estimated charge of connected batteries; transom bracket with gas-spring supported tilt/trim; hydrodynamically optimized shaft; high-efficiency drive train converts battery into propulsive power with unparalleled efficiency; and battery cable set with main switch and fuse. Option: Long shaft or short shaft.

- Cruise 2.0 with Tiller Control**
2KW / 5-6 hp 24V 41lbs.
- 71-1205 *2.0S Cruise with Cables: Short* \$2,699.00
 - 71-1206 *2.0L Cruise with Cables: Long* \$2,699.00

Includes cable set.

TORQEEDO CRUISE MOTORS WITH REMOTE STEERING AND THROTTLE

Same as above, but instead of tiller control, the Remote model includes: connection for standard remote steering; integrated GPS receiver supplies data for on-board information system; handle for tilting and trimming the motor; tilt/lock mechanism with setting options; remote throttle control with magnetic on/off pin and information display (battery charge status, remaining range at current speed, speed over ground and current power consumption in watts); cable set with HD cables and high-current plugs, main switch and fuse.

- Cruise 2.0 Remote**
71-1209 *Cruise 2.0 Remote: 2KW / 5-6 hp, 24V, 38 lbs* \$3,199.00
- Cruise 4.0 Remote**
71-1211 *Cruise 4.0 Remote: 4KW / 8-9.9 hp, 48V, 40 lbs* \$3,699.00

Includes remote throttle control, link arm (connects to remote steering), and cable set.

MOTOR BRACKETS

CHEATA™ MOTOR BRACKET

This anodized aluminum bracket keeps the motor completely clear of tiller and rudders. Bracket has stress limit of over 225 lbs. Motors used with it should be short shaft models not exceeding 3 horsepower and/or 30 lbs.
