

CAT TRAX

Murray's choice for best beach wheels! This lightweight, yet sturdy rustproof beach dolly will carry your catamaran easily over sand, rocks, mud or pavement. The Cat Trax features strong aluminum wheel rims with two-ply pneumatic rubber tires. Roller bearings give low-friction wheeling. The standard length axle is double-drilled to accommodate either 8' or 8'6" wide cats, but a shorter axle model for the Wave is also available, if specified.

OVERSIZED SHIPPING RATES APPLY

13-1401 Cat Trax for 8' to 8-1/2' wide Cats \$419.00

CAT TRAX REPLACEMENT PARTS & ACCESSORIES

Optional accessories include a handle which enables you to pull or push your boat more easily, padded, fiberglass cradles which provide more support for rounded hulls, and an axle connector for easy breakdown and handling of the axle. Axles and handles are oversized and may incur additional freight charges.
