

TORQEEDO 2010

Torqueedo Travel 801

As the other Travel models, the Travel 801 features an integrated lithium battery, very low weight, high power and extremely high efficiency. Special to the Travel 801 is its unique folding mechanism that allows storing the motor in the included waterproof backpack. When space saving storage and transport are key issues, the Travel 801 is the ideal outboard.

- Power:** Input power 800 W, output power 350 W (comparable to 2 HP gas outboard)
- Static thrust:** 68 lbs
- Battery:** 300 Wh lithium-manganese (10 Ah @29.6V)
- Range:** >2 nautical miles at full throttle (approx. 4.6 knots), >10 nautical miles or 6 hours at slow speed
- Propeller:** 12" x 10"
- Steering:** Twist tiller
- Gearing:** F-R continuously variable
- Weight:** 25.5 lbs.
